

SAYYED SAQIB ALI

Full Stack Web Developer

8871984531

sayyedsaqib406@gmail.com

Objective:

Seeking an opportunity to work in an entry-level developer role where I can apply my knowledge of software development and coding to contribute effectively to a dynamic team.

Qualification:

Degree	College/School	University/Board	Percentage
B.Tech. (CSE-AI/ML)	TIT, Bhopal	RGPV	CGPA – 7.0
12 th	Sacred Heart Hr. Sec. School, Ashta	MP Board	67%
10 th	Pushpa Sr. Sec School, Ashta	CBSE	CGPA - 6.6

Skills:

1. Python
2. SQL
3. HTML/CSS
4. Javascript
5. Django Rest Framework
6. FastAPI
7. Python Libraries – Numpy, Pandas, Matplotlib, Seaborn
8. Machine Learning

Projects:

1. Employee Management System –

Developed a three-tier web application using Python that helps manage the records/data of employees by performing functionalities such as adding new employees, updating existing employees, and deleting old ones.

Technologies Used: Python, MSSQL, Django Rest Framework

Functionalities: CRUD

2. Invoice and Billing Software –

Worked as a backend developer in invoice and billing software that uses Django rest framework. It is a de-coupled application used for creating dynamic invoices and managing product records.

Functionalities: CRUD, Search, JWT Authentication

Technologies Used: Python, MySQL, Django Rest Framework

3. Inventory Management System –

Worked as a backend developer in an inventory management system project where different APIs were written to manage the inventory of a company/institute.

Functionalities: CRUD, Search, JWT Authentication

Technologies Used: Python MySQL, Django Rest Framework

4. House Price Prediction Project –

A basic Machine Learning project that is used to predict the house price of a particular area.

Algorithms Used: Linear Regression, Decision Trees, Random Forest

Libraries Used: Pandas, Numpy, Matplotlib, Seaborn, Sk-learn, Joblib.

Languages Known:

1. English
2. Hindi
3. Urdu
